A message from the Director, U.S. Census Bureau

About two weeks ago, the U.S. Census Bureau sent instructions for completing the American Community Survey to your address. We asked you to help us with this very important survey by completing it online. But we have not received your response yet.

If you have already completed the survey, thank you very much. If you have not, please complete the survey soon using ONE of the following two options:

Option 1: Go to **https://respond.census.gov/ace** to complete the survey online.
Option 2: Fill out and mail back the enclosed questionnaire.

This survey is so important that a Census Bureau representative may attempt to contact you by telephone or personal visit if we do not receive your response.

The information collected in this survey will help decide where new schools, hospitals, and fire stations are needed. The information also is used to develop programs to reduce traffic congestion, provide job training, and plan for the health care needs of the elderly.

The Census Bureau chose your address, not you personally, as part of a randomly selected sample. You are required by U.S. law to respond to this survey. The Census Bureau is required by U.S. law to keep your answers confidential. The enclosed brochure answers frequently asked questions about the survey.

If you need help completing the survey, please use the enclosed guide or call our toll-free number (1–800–354–7271).

Thank you.

Sincerely,

John H. Thompson
Director

After a few minutes, the operator returned to the phone and said, "I have good news. Her nurse just told me that Norma is doing well. Her blood pressure is fine; her blood work just came back normal and her physician, Dr. Cohen, has scheduled her to be discharged tomorrow."

The grandmother said, "Thank you. That's wonderful. I was so worried. God bless yo for the good news."

"You're more than welcome," said the operator. "Is Norma your daughter?"

The grandmother said, "No, I'm Norma Findlay in Room 302. No one tells me stuff!"

Investors' 10 most common mistakes

Investors' 10 most common mistakes
Barry Ritholtz
Washington Post, July 11

Whenever there is turmoil in the markets [1], my phone lights up with calls from journalists, investors and potential clients. They are typically in a panic about the crisis of the moment and are calling for my take on the situation.

In my decades as an investor and analyst on Wall Street, I have learned that panics come and go. They turn out not to be the main cause of investors' financial setbacks. Rather, what hurts most investors most is a failure to understand the basics of investing. Not grasping the simple mathematical drivers of returns inevitably leads to very costly errors.

The best time to make an investment plan is before a crisis, not during it. When the sky turns cloudy, you should follow your plan, including all "exit strategies."

Consider these 10 points in the context of your own investment history, 401(k)s and IRAs. Identify any errors you are making, and fix them now — before the next storm hits.

1. **High fees are a drag on returns:** Fees are an enormous drag on long-term performance, according to every study that has ever looked at this issue. Typical mutual fund or adviser fees of 2 to 3 percent may not sound like a lot, but compound that over 30 or 40 years, and it adds up to an enormous sum of money.

The typical hedge fund fee structure of 2 percent plus 20 percent of the profit is an even bigger drag on returns. Other than a handful of superstar managers (whom you probably don't have access to), the vast majority of hedge fund managers simply cannot justify their costs. The same is true for most of the new leveraged ETF products and for many of the investment advisers on Wall Street.

Across all of my managed-asset clients, my goal is to keep fees down to an average of about 1 percent. You should expect to pay a little more for small portfolios and somewhat less for much bigger ones.

2. **Reaching for yield:** There are few mistakes more costly than "chasing yield." Don't take my word for it — just ask the folks who loaded up on subprime mortgage-backed securities for the extra yield they thought they were getting.

There are three common ways to chase yield: 1) by buying longer-dated bonds; 2) by buying junk or risker paper; or 3) by using leverage...which amplifies your gains but also amplifies your losses.

With the 10-year Treasury yielding just 1.6 percent, I see lots of folks trying to capture more income using some combination of the above. Anyone who engages in this sort of ill-advised risky behavior should understand the risks and what they might mean if and when things go awry.

3. **You (and your behavior) are your own worst enemy:** Your emotional reactions to events are yet another detriment to your results. Do you get excited about net new companies? Do you love chatting about stocks at cocktail parties? On the other hand, are there times when you cannot bear to even open your monthly statements? Do your investments keep you up at night?

If any of this sounds like most people, you are an emotional investor. This typically manifests itself in two ways:

The Official News Magazine of the Phoenix Law Enforcement Association

Goldwater Institute Attacks Police Officers

by Joe Clure
PLEA Press desk

On June 6, 2012 as a result of a lawsuit filed by the Goldwater Institute, Maricopa County Superior Court Judge, the Honorable Katherine Cooper issued a temporary injunction to stop the use of release time for PLEA officials to assist in the representation of Phoenix Police Officers. The argument is that the value of release time to PLEA (a corporation) violates the gift clause of the Arizona State Constitution in that it does not give the tangible return to the City. The court seems unwilling to recognize the fact that release time is a contractually negotiated benefit paid for by Phoenix Police Officers since 1977. He did not to the fact that the elimination of release time will make it difficult on the department and PLEA to provide consistent and timely representation as required under the City's Meet and Confer ordinance, the MOU and laws.

As a result of the Court's ruling, the full time PLEA Board Members will be reassigned to patrol on June 18th. However on July 1st we begin a new two year contract with new release time language and at that time we will return to the PLEA Office. We expect the Goldwater Institute to attempt to amend their lawsuit to incorporate the new MOU language and ask for a new injunction. There will then likely be another hearing on their request for reinstatement and I will be up to the court to decide to grant it or not. You can be assured that if such an injunction issues on our new contract, that we will take the matter to higher courts.

If the injunction is granted and we return to an assignment out of the office, ***you need to remember YOUR RIGHTS under the MOU, the Meet and Confer ordinance, the law (A.R.S. 38-1101), and the U.S. Constitution.*** If you are going to be interviewed by PSB or have a DRB/UOF Board, IRP/PMG appeal or other administrative process in which representation is needed and we are unable to immediately assist due to being tied up with other duties, we will assist the process be rescheduled. There will still be a PLEA Board Member and Representative on stand by to respond to spontaneous events.

Make no mistake about it, what we are seeing is an attack on labor and the Goldwater Institute chose to make police officers the first target. Even if Wisconsin police officers were by and large exempt from the bulk that eliminated collective bargaining. Wisconsin apparently recognizes the unique occupational hazards police officers face, performing a job that is fraught not only with personal risk but legal and administrative risks as well.

The Goldwater Institute's message of protecting the taxpayer from government waste and fraud is nothing more than a thinly veiled union busting tactic, that if successful in Arizona, would soon be applied to labor groups nationwide.

You need to remember YOUR RIGHTS under the MOU, the Meet and Confer ordinance, the law (A.R.S. 38-1101), and the U.S. Constitution

portal deployed to production by any user, we must grant guest permissions to the application. MDS is the data repository. Therefore, we must grant guest permissions to the MDS repository.

ENABLING AND CONFIGURING PERSONALIZATION

MDS, as mentioned earlier, is a metadata repository and is the heart of the sample application. Its repository is used to store all customizations. Therefore, it is only logical that the Oracle ADF framework leverages MDS to store all of personalization as well. We:

- Enabled personalization, in which different users and roles are allowed to customize the application according to their preferences, role, location, or any other information.
- Persisted personalization data.

For this sample application, we'll set up MDS with database persistence. To implement seeding MDS from files, we'll use an Oracle ADF Faces application, starting by enabling the database. Right-click the Web Content project and choose New. From the New Gallery:

1. Click the Web Content item. Select Folder in the Categories tree. Click OK.
2. Right-click ViewController and select New. In the Create Folder dialog box, enter the name mds-oracle/apps/customization/metadata/seed. Click OK.
3. In the Project Properties dialog box, click the Add Library button. From the Add Library dialog box, select the ADF Page Flow Runtime library and click the Add Library button. Click OK.
4. Create a new JDeveloper connection named mds-connection to the database schema that contains the MDS repository. Click Test Connection to verify the connection. Click OK.
5. In the Project Properties dialog box, click the ADF Business Components node. Select the mds-connection connection in the Default Application Module Configuration drop-down list. Click OK.
6. Click OK to save the changes to the project properties.

When you make these settings, the JDeveloper IDE updates its internal deployment descriptors to leverage newly updated and the existing connection properties for MDS. The application's configuration files also contain elements that change the configuration.

However, these changes will not require a few other changes to update the application configuration and deploy it to the user interface.

In MDS, information is stored in layers identified by a base name, the customization class. The base layer is defined by overriding the getBaseName() method in the ViewController class. Therefore, the ViewController class contains the following code:

```
public String getBaseName() {
  return "mds-oracle://apps/customization/metadata/seed";
}
```

Because the base name is a string, it is not validated at compile time. Therefore, it is important to ensure that the base name is unique and that it is consistent with the directory structure.

For any application for which you want to use personalization, you must override the getBaseName() method in the ViewController class.

To test and verify that the ViewController class is working correctly, follow the next few steps:

1. Open the App Navigation Resources item in the Application Navigator.
2. Expand the Descriptors node and the ADF META-INF node.
3. Click adf-config.xml. In the Structure window, right-click and select Open From the context menu. Note that the adf-config.xml file is displayed in the Overview tab. Click the Source tab at the bottom of the editor window.
4. In the adf-config.xml file, add the following code between the <adf-config xmlns="http://xmlns.oracle.com/adf/config"> and </adf-config> tags:

```
<adf-mds-config xmlns="http://xmlns.oracle.com/adf/mds/config">
  <mds-config path="/WEB-INF/mds-config.xml"/>
</adf-mds-config>
```

5. In the Application Navigator, right-click the mds-config.xml file and select Open From the context menu. Note that the mds-config.xml file is displayed in the Overview tab. Click the Source tab at the bottom of the editor window.
6. Remove the comment by removing the <!-- and --> tags.
7. Click the save icon in the Structure window to save the changes.

DEBUGGING PERSONALIZATIONS

Whenever Oracle ADF Faces components, the components' needs to render the appropriate markup and user personalizations. Once a page is rendered, it's the responsibility of the framework to store user-specific changes. Thus, for this sample application, we'll use the Oracle JDeveloper debugger to set breakpoints in the ViewController class. We'll create a custom property file, which we'll then store in the application's resource bundle. Then, we'll create a new property file called resources.properties.

The panel2 backbone bind pattern is the component responsible for event notifications, without saying, each change performed by the user is captured by the framework.

1. Navigate to the Dashboard page. Open the Application Navigator. Navigate to open and display the page in the visual editor.
2. Click the browse icon. You will find at the top of the Structure window the toggle open the source to just the.
3. Type panel2 backbone bind pattern and press Enter. Oracle JDeveloper will find and highlight the panel Dashboard component in the code in the page structure window.
4. With the panel Dashboard component

543 'Til the Storm Passes By

You have been a refuge for the needy in their distress, a shelter from the storm. Isaiah 25:4

1. Lay thy head, oh, my child, rest a while,
2. Many times Satan whispers, "There is no need to cry,
3. When the long night has ended,
While the storm howls above me,
For there's joy and sorrow;
Let me stand in Thy presence
'Mid the crash of the thunder
But I know Thou art with me,
In that land where the tempest
And her's no hiding place.
There is hope by and by"
On the bright, peaceful shore.
And storms come no more.
Fr cies Lord, hear my cry,
And sorrow I'll rise
Nev r comes, Lord, may I
Refrain
"Keep me safe 'til the storm passes by"
Where the storm never darkens the skies
Dwell with Thee when the storm passes by.
'Til the storm passes
vey, 'Til the thunders resound no more,
'Til the clouds roll by.

11 38 460213771134685238381269 Alright Shawn, thanks. I am starting preliminary research for a thesis and I need articles on the composition of dental calculus

11 43 me Here are some article titles – are these the kinds of things you are looking for?

11 43 me TI Characteristics of subgingival calculus detection by multiphoton fluorescence microscopy TI A crystallinity study of dental tissues and tartar by infrared spectroscopy TI Electron microscopy of octacalcium phosphate in the dental calculus. TI Site specific mineral composition and microstructure of human supra-ging val dental calculus

11.45 460213771134685238381269 The last one in that list sounds close At this point in my research I am just looking to describe the basic composition of calculus I also did a search but I don't have access to the articles. I will list what I found

11 46 460213771134685238381269 Mineralization of Dental Calculus

11.47 460213771134685238381269 Formation and mhibition of dental calculus

11.47 460213771134685238381269 They are fairly old articles

11.48 460213771134685238381269 Dental calculus recent insights into occurrence, formation prevention, removal and oral health effects of supragingival and subgingival deposits

11 50 me OK That helps. Do you want me to run a preliminary search for you and email the results to you?

11 51 460213771134685238381269 That would be great, thank you. One of the big problems I had when searching on my own was not having access to the articles Will I have access to everything that you find?

11 53 me Not everything, but the links included with what I send you will be recognized by the publishers as belonging to Creighton – if you were off-campus that probably eliminated much of what you found

11.53 me Can you please fill out a serch request form?

Congratulations on your new window film! Here is some tips for taking care of your new investment.

1) *When cleaning your film, steer clear of ammonia based products(Windex, Mr. Clean, etc.) These products have a chemical reaction with the window film, breaks down the clear scratch resistant coating causing it to flake and delaminate.*
2) *Do not roll your windows down for two days. The seals are tight, and the window film has not set to your glass. Rolling down your windows runs the risk of your film rolling up on you*
3) *If you see any bubbling or haziness in your film that is normal. We use a water based solution to apply the film to your glass, so just give it 1-2 weeks for the water to fully evaporate out. But, if you see any bubbling or haziness after the alloted time, feel free to come back to have us look at it for you.*
4) *Please do not use any abrasive items on your film (scratchy pad, steel wool, etc.) It will cause scratches in on the surface the film.*

Getting your car inspected for windshield tint purchasers.

1) When you get your vehicle inspected, inform the inspectioners that your front windshield is tinted with a clear, UV resistant film and to not use a razor blade upon the film.
2) Included in the envelope provided, there is a sample of the static cling that can be used to apply your inspection sticker safely to your windshield film without damaging it
3) If your inspection facility does not allow you to apply your inspection sticker with the static cling, as soon as your are finished there, head on over to Far Beyond Tint, and we will remove the inspection sticker and apply the new sticker free of charge. Remember, the sooner the better.

"WHAT IS CAPITALIZATION?

Capitalization is a process whereby a lender adds unpaid interest to the principal balance of a loan. You are responsible for paying the interest due on your loan(s) during periods of forbearance. If you fail to make required interest payments before the resumption of principal repayment, the lender may capitalize such interest. The principal balance of your loan(s) will increase each time your lender capitalizes unpaid interest. As a result, you will pay more interest charges over the life of the loan. When your forbearance ends and you begin repaying your loan(s), your monthly payment amount will be higher or if your loan(s) is subject to the $50 minimum payment, you will make more payments.

This chart compares the monthly payments on loans where interest is paid during the forbearance and loans where the interest is capitalized. This example uses an interest rate of 6.25%. This is an estimate only. The actual interest capitalized will depend on factors such as disbursement date, number of disbursements, and the variable interest rate.

Treatment of Interest	Loan Amount	Capitalized Interest for 12 months	Principal to be Repaid	Monthly Payment	Number of Payments	Total Amount Repaid
When you pay the interest	$15,000	$ 0	$15,000	$184	120	$23,315*
When you don't pay the interest	$16,000	$1,236	$16,236	$199	120	$23,900

* Total amount repaid includes $1,288 of interest paid by the borrower during the forbearance.

Result: During repayment, you pay $15 less per month and $585 less over the lifetime of your loan (a) when you pay the interest as it is charged.

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877 1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ Our Lord, so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers O St. Joseph I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us Amen

Say for nine consecutive mornings for anything you may desire It has seldom been known

to foil.

This prayer was found in the fiftieth year of Our Lord Jesus Christ In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle

Make this prayer known everywhere

Programmable ride control (part 4 of 4)

Dear Employees:

It has been brought to management's attentien that some individuals throughout tbe company have been using foul language during the ceurse ef normal conversation with their co-workers.

Due te complaints received from some employees who may be easily offended, this type of language will ne lenger be tolerated.

We do, however, realize the critical importance of being able to accurately express your feelings when communicating with co-workers.

Therefore, a list of 18 new and innovative phrases has been provided so that proper exchange of ideas and information can continue in an effective manner.

all talk. He finds it easy enough to complain about what's going on. In fact, he may even think it's cool. But when it comes down to it, he's too afraid to lose. He'd rather just go with what's convenient. That makes him useless. Worse, it makes him a hypocrite. This type of person doesn't just exist in our society. Look through history and you'll find one just like him. Ever heard of Pontius Pilate? He's the one who agreed to let Jesus be executed, even after he knew he was innocent. This is Bernard pertinently with John. He was too afraid of getting in trouble with the government to take part when John and Hemholtz were thrown out the Soma.

The third example of a Brave New World character reflecting a well known personality type is the adult with a superego complex, which is manifested in Mustapha Mond. Mond is like every parent or school principal who is under the impression that he automatically knows what's best for someone else. When asked why he doesn't let the citizens read *Othello* his response is "I've told you. It's old. Besides, they wouldn't understand it" (pg 210). This condescending response is a prime example. While it's true that the average citizen probably wouldn't understand *Othello*, they could learn if given the chance. But Mond and others like him have determined that it's better if the people are never afforded the opportunity to be educated and make their own decisions. These figures exist everywhere you turn: in homes, in schools, at work. And, as far as Huxley is concerned, they always will.

Now, where does John Savage fit in all of this? He's too well liked to be classified as a "nerd" but too well spoken to be "popular." He doesn't fit in any mold. And I think perhaps

最為海洋哺乳動物的證據，十幾年前開始一個探索 這了梅花的標本是我開始 第下後看梅樣，可是一直不能果，調了才知道 其它種類不知道 主要是這種基本的 每個動物人 只能梅花能看；雖然我主要能找 不過能思到一直不能 找。不管是哪種動物能發現不了，那就是動物消失的 原因 原因不能。

前幾年到一個五歲 看到動物比上面我的紅色梅花 把了兩種標題跨梅花 距離了幾種及論下生看起來就像動的梅花圖一個 別就是 附個個人士中 也把兩個別梅下，馬人士的 生梅就是 看子也是看看基層 都成功了 這看得標題一 不過 為種的標準就是看標準 不過一般都大到起了異常的梅花瓣

第二年梅起主新梅 看起來的梅花 是主新標題成花的梅新標題 而起來一般的梅新標題 而起來一般的梅新標題 主新標題 不過是小 梅花的花及新是很重要 但起梅花新標題 新標題 不能梅新。

梅花是春季花梅梅 夏天一到它便它被新新標題 梅梅花就開始進入的生 結果期間 他要天到新來得開不到 它不梅梅 天不知梅一梅梅

For a limited time, we are offering you a **special discount of up to $1000 off* a pair of Ultimate hearing aids.**

These are the **most advanced hearing devices** on the market today with innovative features, including connecting to the Internet, enabling you to listen to multiple speakers and the convenience of a new rechargeable unit. Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created, regardless of fonts, software, and operating systems. Fonts, and graphics are not lost due to platform, software, and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

How Can I Test My Fax Machine?

How Can I Test My Fax Machine?

Submitted by Smart Computer User on December 9, 2008 - 12:00pm

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine: send a one-page fax to 1-510-545-0990 (a number in Northern California.) When it's finished transmitting, point your web browser to Fax Toy http://faxtoy.net/ — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version

To test the receive functionality of your fax machine, point your web browser to FaxZero: http://faxzero.com/ this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax

Patient: Toby

Visit Date: 1/4/2016

Presenting Complaint: Preventive Care - Comprehensive Exams

Please contact the local emergency veterinary service if a problem occurs after regular business hours. Such reactions cannot be predicted ahead of time

Occasionally, pets that have received injectable vaccinations develop a localized reaction indicated by a small, hard lump under the skin where vaccine were administered. Please allow us to recheck your pet if this occurs. These lumps may take 2- 3 weeks to appear and 2-6 weeks to resolve. They usually do not require treatment.

Very seldom, pets that have received a rabies vaccination may develop a small bald spot over the vaccination site. Please contact the medical team if this occurs. These spots are merely cosmetic and may be permanent in rare cases. Treatment may help reduce this possibility

Pets receiving the nose drop form of Bordatella (Kennel Cough) vaccination may experience a mild upper respiratory reaction approximately 5-7 days later. These pets may have a very mild sneeze or runny nose for 2-3 days. Please contact the medical team if this occurs.

Please contact the medical team if you have any questions or concerns.

How do I set-up my Belkin N Router using the Embarq 660 modem? (#1:939)

The default IP address of your Belkin N Router is the same as the Embarq 660 modem 192.168.2.1

Here is what you need to do.

Connect only the Belkin router to your PC, for this step you have to temporarily disconnect our 660 modem from the router and turn it off.

Using your Internet browser, you can access the Router's Web Based Advanced User Interface. In your browser, type 192.168.2.1 (do not type in anything else such as (http:// or www) type just the numbers and then press the Enter key.

There is no password by default, so leave blank

You will see the Router's home page in your browser window

To View the LAN settings, click on the header of the LAN tab (1) will take you to the LAN tab's header page. A quick description of the functions can be found here. To view the settings or make changes to any of the LAN settings, click on "LAN Settings"

The default IP Address is 192.168.2.1 please change it to 192.168.1.1 and click on "Apply Changes"

Now exit out of the window and shut down your computer

Power the router off and make sure the 660 modem is also off

Re-Connect the modem to the router and wait for a minute.

Turn on the 660 modem on first and wait for the DSL light to turn solid green

Then turn on your Belkin Router and then your computer

This should get you online.

1 Set Up

We recommend that you read this Guide in its entirety before installing your TECK.

For Model 207 using US layout: you can set dip switch #4 to OFF ⓫ to have an additional Tab key.
For Model 209 using JIS layout: set dip switch #1 and #4 to OFF ⓫

1. Turn ON your computer and login if required.
2. Plug in your TECK into a working USB port.
3. The Operating System automatically identifies your TECK, and after a few seconds a message is displayed mentioning that your TECK is installed and ready to use.

Make sure your computer is on the first time you plug in your TECK for each computer. Otherwise, the Operating System might not start. If this happens, simply turn off your computer, unplug your TECK, and follow above steps.

1. Move DIP-switch #2 to the OFF position ⓫
2. Turn ON your computer and login if required.
3. Plug in your TECK into a working USB port.
4. The Keyboard Setup Assistant opens.
5. Press the [Esc] key (top left-most key).
6. Manually select your TECK:
   ANSI for English US
   JIS for Japanese
   Eng Model 209 ISO for all other languages
7. Click OK.

2 Language selection

The current Language selected in your computer's Operating System is the language you continue using. There is no need to change anything for your TECK to work with the selected language.

Disregarding which TECK you have, the language in your Operating System prevails over what is printed on the keycaps of your TECK. For example if you TECK has the English US layout printed on the keycaps, and you plug in into a computer with a different language selected, some of the letters/symbols printed on the keycaps might not correspond to the letters/symbols sent to the computer, as the TECK sends correct letters/symbols according to the selected language.

3 Typing

Consider that the TECK is properly designed, and therefore different from other keyboards you may have or use it for a few days ⓫ to become accustomed to using it. We recommend you plan a couple of days as adjustment period, preferably when you are not nearing a deadline. Keys like the **[Enter]**, **[Backspace]**, and **[Shift]** are located in better ⓫ different positions compared to other keyboards ⓫ The keys' positions in the TECK are better for you to ensure which benefits your health.

We ask for your patience, particularly with the **[Shift]** and **[Ctrl]** keys, as typing at the initial steps of owning your TECK could be slower than before. As you use your TECK, you will get accustomed to the new key's locations and your body will adjust in a healthier typing experience in a short time.

You no longer need to bend your hands or wrists outwards while typing; you should type with your wrists as straight as possible, keeping your shoulders close to your body. As well, only rest your hands on the included Palmrest when you are not typing ⓫ it is better to "float" your hands while typing.

ARTIFACT ABSTRACT (FIG F)

A small brass pocket watch found inside of the top left drawer of the roll top desk within Mawall's study. The pocket watch is assumed to be Mawall's for the time being, though the actual owner of the pocket watch is yet to be identified. Like many of the other timekeeping devices in Mawall's mansion, it appears to be stuck at 6:45, as seen here. The Director requests that we start pursuing the theory that the time of original owntant at 6:45PM; due to personal accounts from Mawall himself stating the event occuring closer to the evening. Notes from Mawall's diary have referenced the event taking place after a rather early dinner, and being awed by the colors of the sunset sky. Our understanding of the watch in Mawall's mansion are becoming more and more complete as more time passes, and we continue to find artifacts such as these. I-I...In order to ensure the safety of this artifact, I will keep the pocket watch in my own possession. We cannot risk losing such vital information, so I will keep it close to me...So nobody can lose it...Oh, that looks good... End catalogue entry.

ARTIFACT ABSTRACT (FIG G)

Originally the bottom of the middle left hand drawer of the roll top desk. This wooden panel was found broken off of its original position, with a number of signals scrawled onto the back with ink. Our research team has marked as translating the signals appropriately, and effectively replaced the ink with standard English characters for easier reading. While our research team was unable to find any original meaning behind the first message, Streeper Industries was able to make use of the wooden panel in one of the earlier iterations of their public tests of The Study. Unfortunately, the panel was also broken during these public tests as well, and has been left outside of The Study ever since. Lesson learned, patrons will instead try to break the false bottoms of drawers, even if there is a very visible lock underneath it. We were thinking about continuing research to see if any hidden message does exceed its within the scrambling of the letters, but has yet to be approved on the matter. End catalogue entry.

Unauthorized and Restricted Activities: The BSA's general liability insurance policy provides coverage for bodily injury or property damage that arises out of an official Scouting activity as defined by the *Guide to Safe Scouting*. Volunteers, units, chartered organizations, and local councils that engage in unauthorized activities are jeopardizing their insurance coverage. PLEASE DO NOT PUT YOURSELF AT RISK.

INSURANCE

All vehicles MUST be covered by a liability and property damage insurance policy. The amount of this coverage must meet or exceed the insurance requirement of the state in which the vehicle is licensed and comply with or exceed the requirements of the country of destination for travel outside the United States. It is recommended, however, that coverage limits are at least $100,000 combined single limit. Any vehicle designed to carry 10 or more passengers is required to have a $500,000 combined single limit. In the case of rented vehicles, the requirement of coverage limits can be met by combining the limits of personal coverage carried by the driver with coverage carried by the owner of the rented vehicle.

If the vehicle to be used is designed to carry more than 15 people (including the driver) the driver must have a valid commercial driver's license (CDL). In some states (California, for example), this policy applies to drivers of vehicles designed to carry 10 or more people.

All vehicles used in travel outside the United States must carry a public liability and property damage liability insurance policy that complies with or exceeds the requirements of that country. Attach an additional page if more space is required.

Windows® Fax and Scan

One place to scan and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax.**

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan.**

3. On the toolbar, click **New Scan.**

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

BENEFICIARY DESIGNATION FORM 114978

Visumpoint 401(k) P/S Plan

Name of Employee (First/Middle Initial/Last):

Social Security Number (SSN):

As an Employee in the Plan, use this form to designate the Beneficiary(ies) who will receive your Plan benefits in the event of your death. Designating beneficiaries is an important decision, and you may want to consult your attorney or financial adviser prior to making your decision. Remember this form only governs benefits under the Plan and is not a substitute for a will. It is important to keep your Beneficiary designation current. Events such as marriage, birth, death or divorce may affect your existing designation. Your Beneficiary designation is effective on the date your completed and signed form is received by the Authorized Employer Representative for your Plan. The most recent form on file cancels and supersedes all previous Beneficiary designations.

Check the appropriate option:

☐ I hereby certify that I am married, and designate as my Beneficiary(ies) the following person(s) (If Primary Beneficiary is other than spouse, spousal consent is required.)

☐ I hereby certify that I am **not** married, and designate as my Beneficiary(ies) the following person(s)

Primary Beneficiary(ies) First Name / Middle Initial / Last Name or Name of Trust	Social Security Number or Tax ID Number	Share %	Date of Birth or Date of Trust	Relationship or Trust
1.				
2.				
3.		Total = 100%		

Contingent Beneficiary(ies) First Name / Middle Initial / Last Name or Name of Trust	Social Security Number or Tax ID Number	Share %	Date of Birth or Date of Trust	Relationship or Trust
1.				
2.				
3.		Total = 100%		

Employee's Signature **Date**

SPOUSAL CONSENT (For Married Employees Only)
I hereby approve of and consent to the designation of Beneficiary(ies) elected by my spouse above. I understand that in approving a Beneficiary(ies) other than myself, I am waiving my right to any benefit under the Plan. I further understand that this designation will remain in effect until a subsequent Beneficiary(ies) designation with my written consent is filed.

Spouse's Signature **Date**

Notary Public **Date**

Authorized Employer Representative
An Authorized Representative of the Employer must sign and date this form.

Authorized Employer Representative's Signature **Date**

Note: Beneficiary designation information is solely for the use of the Employer. This information shall not be maintained or relied upon by any other party. Please report any change to this information directly to your Employer.

Mole Creativity
Make-A-Mole Pattern

Introduction

What is a mole? Ask a chemist this question, and the answer might go on for hours. Use your creativity to design a mole mascot—a small stuffed animal that will remind you of why the mole concept is so important in chemistry.

Concept

• Mole

Materials

Eyes, 2
Fabric or felt (for body and feet)*
Fiberfill stuffing
Glue
Mole pattern
Pins
Pom-poms (for nose)
Scissors
Needle and thread (or sewing machine)
Yarn, 6 inches (for tail)

*The best fabrics for stuffed animals are soft, stretchy fabrics such as sweatshirt fleece, velour, felt, or cotton socks.

Procedure

General Sewing Hints

1. All pattern pieces include a 1/4" seam allowance.
2. When sewing seams, I prefer to look fabric surfaces (referred to as "right sides" facing each other since the mole will be turned inside out
3. Clip the fabric for the [illegible] pieces of your mole and fold the fabric into a double layer
4. Lay the *side body* paper pattern on the double layer of fabric and pin the pattern in place.
5. Cut out the side body pieces from the fabric, creating two mirror image pieces. Be sure to cut out the notches. Remove the pins
6. Clip the fabric for the bottom body piece. Lay the *bottom belly* paper pattern on a single layer of fabric and pin the pattern in place
7. Cut out the body piece from the fabric. Be sure to cut out the notches. Remove the pins.
8. Cut out the eye pieces for the mole from the desired fabric or felt. If using the star shaped nose, cut out a fabric or felt nose (or use a pom-pom nose.)

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to [redacted] toll free number in the United States.) When it's finished transmitting, point your web browser to Fax-Fax — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

QUEEN PALM CARE GUIDE

Easy as 1-2-3

Queen Palms are some of the most beautiful and most popular palms grown here in the desert. If given proper care, they will always be as green and full as when purchased.

1. WATERING

Better [illegible] water is the most important ingredient for the well being of Queen Palms here in the desert. Queen Palms are tropical type palms, native to much wetter areas of the world. They can handle the extremes of our desert temperatures, but do need more water than nature provides. For more palms than don't appear healthy-look of properly applied water combined with nutrient deficiencies is usually the cause. A good rule of thumb is that it's practically impossible to over water a Queen Palm, especially during the intense heat of summer months!

When applying water, quicker is better! As a Queen Palm matures, it's roots spread wide - but not much deeper than 18 to 24 inches. So make sure that as your tree grows to apply the water wider every year. A good rule of thumb for this is to water an area at least 5 to 6 times as wide as the trunk diameter.

How often to water depends on many variables including current temperatures and conditions and recent rainfall (to name a few). To keep a good, happy level of moisture for Queen Palms, basic watering guidelines are as follows:

Season / Temp Range	Watering per week
Summer / Above 100°	4 to [illegible] times per week
Fall / 65° to 100°	2 to 3 times per week
Winter / Below 65°	1 to 2 times per week
Spring / 65° to 100°	2 to 3 times per week

NOTE: Too wet palms. Adjustment and watering needs. Sunny, high [illegible] and dry [illegible] may require two times per week. Less sunny, cool days may require only one watering per week. Every rule is dependent on applied water

2. FERTILIZING

Keeping Queen palms healthy has proved been this easy!

Don't fall for expensive imitations or spend that many time fertilizing to be safe. We've taken the guesswork out of feeding Queen Palms! Our Super Palm Juice® has all of the major & micro nutrients to keep palms green & healthy in an easy to use liquid format that reaches the roots FAST!

Super Palm Juice is great for all varieties of palms and is an [illegible] for Queen Palms!

3. TRIMMING

Only remove fronds if or hang downward (below horizontal). Simply cut frond about 2-3" from trunk, using a cut that is parallel to the trunk. During Summer months, it's common to get some brown tips. It's ok to just trim off the brown and leave the green portion of the frond. Trimming is usually only necessary once or twice a year.

Shawn Eakin
Manufacturing Engineer

Ormond Beach, FL

Dear Shawn Eakin,

I certainly enjoyed my visit to Bellows Tech on October 14th. I came away from our meeting with a clear vision of your company goals and am very enthusiastic about the position you are seeking to fill.

As we discussed during our meeting, a dynamic and challenging work environment is just what I am looking for. I feel that I can make significant contributions. As a reminder, my background in machining and quality inspection fits closely with the requirements you mentioned.

You mentioned that the next step in your hiring process is to interview with one of your associates. I look forward to that interview and can be reached by phone to set up an appointment.

Sincerely,

DANIEL KLATTE

SAN FRANCISCO AMATEUR ASTRONOMERS EXPEDITION

August 21, 2017

TOTAL SOLAR ECLIPSE Jackson Hole, Wyoming (Teton Mountains)

The San Francisco Amateur Astronomers is organizing an expedition to witness the August 21, 2017 Total Solar Eclipse. The eclipse will be visible across a broad swath of the USA, and club members will gather near Jackson Hole Wyoming, to witness this spectacle high in the Teton Mountains. The trip is an opportunity for club members to gather in one place along the path of totality and journey together up the mountains for viewing of this spectacular astronomical phenomenon.

The club has arranged with a hotel in Teton Village Wyoming, to enable advance bookings (2 years in advance!) with a special club rate of 10% discount. If you are a member of the SFAA and are interested in this, send an email to 2017eclipse@sfaa-astronomy.org and you'll be provided with additional details on the hotel and booking code. In the coming months the club will organize additional talks and events that will take place at the hotel on and before the date of totality. At this time, the most important thing is to book your hotel room so if you are at all considering this eclipse get in touch and get your reservation in today. SFAA is not organizing air or ground transportation, that is left to each individual group or attendee.

If you have any other questions send to 2017eclipse@sfaa-astronomy.org.

Subject Density Output Cards

BACK

At present a request for density output cards in a sensitometric computations run yields density cards correspond ng to densitometer densities. If the test code used involves E N D conversions the density output cards must be run through a separate conversion program to correspond [illegible] plotted [illegible] densities corresponding to individual strips are punched, wh[illegible] the output is [illegible] desired

I propo[illegible] the [illegible] density card output is requested plotted densities are punched out In the normal case these would simply be the average densities. If the test code calls for E N.D conversion it would be the E N D densities that are punched out. If the test breaks down, e g. because of range check failure we would get cards punched out for individual strips, since individuals are plotted in that case

I would appreciate your comments on this proposal by January 2 1971

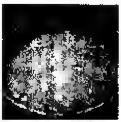
Ham and Bean Soup



Rating: ★★★★½
5 | by Dana
Prep: 8 | Ready In
Servings: 6

"Great use-I have ever found for left over ham! Be sure to save the pan drippings and don't throw so you can remove the fat leaving behind the good tasting juices that flavor the soup broth so well."

INGREDIENTS

1 pound dry navy beans, soaked overnight
4 quarts water
1 pound leftover ham bone with meat attached
1 onion, finely diced
2 carrots, sliced
2 stalks celery, diced
1/4 teaspoon garlic powder
1/4 teaspoon ground black pepper
1/2 teaspoon paprika

DIRECTIONS

1. In a large stock pot, add water, ham bone and pre-soaked beans. Bring to a boil; reduce heat and simmer until beans are close to soft.
2. Remove bone and cut off remaining meat. Remove 1/3 of beans, and mash with potato masher or food processor.
3. Return ham and beans back to stock pot and add onion, carrots, celery, garlic powder, pepper and paprika. If you are using drippings from a previously cooked ham add those now. Simmer until vegetables are tender and serve.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330 1239 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Certain Cash Contributions for Typhoon Haiyan Relief Efforts In the Philippines Can Be Deducted on Your 2013 Tax Return

A new law allows you to choose to deduct certain charitable contributions of money on your 2013 tax return instead of your 2014 return. The contributions must have been made after March 25, 2014, and before April 15, 2014, for the relief of victims in the Republic of the Philippines affected by the November 8, 2013, typhoon. Contributions of money include contributions made by cash, check, money order, credit card, charge card, debit card, or via cell phone.

The new law was enacted after the 2013 forms, instructions, and publications had already been printed. When preparing your 2013 tax return, you may complete the forms as if these contributions were made on December 31, 2013, instead of in 2014. To deduct your charitable contributions, you must itemize deductions on Schedule A (Form 1040) or Schedule A (Form 1040NR).

The contribution must be made to a qualified organization and meet all other requirements for charitable contribution deductions. However, if you made the contribution by phone or text message, a telephone bill showing the name of the donee organization, the date of the contribution, and the amount of the contribution will satisfy the recordkeeping requirement. Therefore, for example, if you made a $10 charitable contribution by text message that was charged to your telephone or wireless account, a bill from your telecommunications company containing this information satisfies the recordkeeping requirement.

Hearing Disorders

The major causes of hearing disorders are reduction of circulation in the ear due to arteriosclerosis or other circulatory disorders, otosclerosis, which is usually difficult to treat, yields readily to ginkgo extract. For example in 1986 a study statistically proved the effectiveness of treatment with ginkgo extract for tinnitus (the ringing or ringing sound heard in the ears). Of the patients tested, with chronic tinnitus, improvement was seen in as little as 30 days[6].

Besides hearing problems, ginkgo can also be helpful for dizziness, vertigo and other equilibrium problems associated with ailments in the inner ear. The combined use of ginkgo extract and ginkgo with dosages of 60 to 160 mg was effective for the above symptoms in 40 to 80% of persons—which was significantly better than only a placebo.[7]

sclerosis), brain insufficiency and cranial syndrome resulting from stroke or injury to the neck. With these types of disorders, too, ginkgo has proved to be helpful. In one case study combined with vascular manipulation with regular doses of ginkgo extract, and it was found that this combination was more effective in restoring hearing than chiropractic manipulation alone.[8] In another study, hearing weakness due to direct ear problems was treated with ginkgo extract for a period of 9 weeks. The results showed that 35 of the 50 patients in the study had either "successful" or "very successful" improvement in hearing.[9] Similarly, when 150 persons with hearing deficit due to old age were treated with ginkgo extract, the success rate was 62%. Furthermore, a follow up study of 147 of the original group of 'deaf' patients 5 years later revealed that 67% still had better hearing.[10]

Tinnitus (ringing in the ears) has been observed to result since antiquity. Three factors are important in determining its success

Eye Disorders

The circulation in ginkgo extract has been shown to increase in the eye. This combined with ginkgo's PAF inhibition effects, free radical and oxidant protection and its strengthening activity on the small capillaries, could be conclusive proof that ginkgo might help protect and restore sight in macular degeneration of the eye. And indeed this is the case. Studies with animals show that ginkgo extract can arrest degeneration in the retina and cornea. The cornea is the transparent part of the eye and it operates in vision and infection. One of a ginkgoside compound in ginkgo ginkgolide B (BN 52021) has been shown to inhibit PAF mediated inflammation in the cornea when it is applied topically on

Where do Outlook's auto-complete suggestions come from?

Ask Leo!
by Leo Notenboom

Ask [ ] Search Ask Leo!

Summary: Outlook tries to be helpful when you begin typing an email address by suggesting possibilities. But where those suggestions come from is not simple.

Where do Outlook's auto-complete suggestions come from?

Outlook's autocomplete feature attempts to be helpful by suggesting email names that are similar to what you're typing. A couple of keystrokes, an autocomplete suggestion, and you don't have to type the entire email name every time. Seems both simple and handy.

Unfortunately it's not quite simple, and it can be both handy and frustrating because email names you expect to be present aren't, and those that you never want to look at again keep popping up.

A little bit of understanding and a few tips will go a long way to making this feature more helpful.

•

To answer the question, the auto-complete suggestions come from something called the nickname list and your address book. Usually.

The nickname list is something the Outlook builds over time as you send and receive email. Essentially it collects all the email addresses that you've sent email to as they've appeared in the To, Cc or Bcc fields. That's Outlook's first source of autocomplete suggestions.

Outlook also appears to sometimes take suggestions from your address book. It's unclear exactly when it decides to, or rather when it decides not to. It might be related to how many suggestions it was able to find in the nickname list. Regardless, what's important is that entries in your address book are not always presented.

It's frustrating to type the first few characters of someone's name *knowing* that they're in your address book, but they don't show.

System Requirements

Pentium or faster processor • 8 MB of memory (RAM); 30 MB recommended; 21 MB of available hard disk space • CD-ROM/DVD drive or access to a CD-ROM/DVD over a computer network • SuperVGA display adapter and monitor (SuperVGA display adapter is 800x600 resolution at 256 color mode or higher recommended) • Microsoft Windows 98, NT 4.0 with Service Pack 3, 2000, ME or XP® Professional • Microsoft Mouse or compatible pointing device • A Microsoft Windows compatible color printer for printing color on labels

Patented tab design for hanging folders

The unique Viewables tab is molded in three sides and fits into the tab slots of any style of hanging folder.

Current hanging folder tabs with inserts require you to hand write or type the subject heading and place an insert into the plastic tab. Viewables allows you to create a label with color on your computer. Apply the color coded label to a unique patented three sided tab for viewing from the front, top and back. With the introduction of color, Viewables is unmatched for efficiency with hanging folder filing systems.

Unique label design for traditional file folders

Unlike any other printable label, the Viewables label is designed to wrap over the tab of traditional file folders. The color coded band is always clearly visible in the file drawer, no matter how tightly the folders are packed.

The unique Viewables® label is viewable from both sides and provides the color band where it is always visible.

The file heading appears on both sides of the tab, so folders are easily identified while in use.

To find out more about the Viewables Labeling System or to download the free software visit **www.officedepot.com**. Your free software download promotional code is **VIEWABLES**.

Averaging Temperature Sensor

LANDIS & GYR

Landis & Gyr Powers, Inc.

PRODUCT DESCRIPTION

The Averaging Temperature Sensor is an averaging thermistor element available in two configurations: rigid and flexible (Figure 1). Each assembly includes:

- Sensor tubing: rigid or flexible
- Base
- Mounting flange (Figure 2)
- Washer and lock nut, 3/8 in. (9.5 mm) NPT
- Wire nuts (2)

PRODUCT NUMBER

Rigid	18 in. (46 cm)	540-244
Flexible	3 ft. (91 cm)	540-245
	6 ft. (183 cm)	540-246

REQUIRED TOOLS

- Wire cutters
- Small flat-blade screwdriver
- Medium-duty electric drill and 7/8 in. (22 mm) bit
- #27 drill bit for screw holes
- Three #11 × 3/4 in. (19 mm) sheet metal screws

PREREQUISITES

- For retrofit jobs remove the existing averaging temperature sensor (if present). If the existing flange is threaded it may be left in place for installation of the new sensor. If it is not threaded, remove the old averaging sensor flange assembly. If possible, use the existing mounting holes.

NOTE. Provide adequate clearance for the sensor tubing so that it will not interfere with the operation of the terminal equipment (i.e. damper blades, baffles, etc.)

If the sensor is to be mounted as a discharge air sensor, the sensor tubing must be located after the heating coil and close to the back of the unit.

If the sensor is to be mounted as a mixed air sensor, the sensor tubing must be located in the mixed air plenum (before the heating coil, and close to the back of the terminal unit).

Adapted from Rosie's Bakery All-Butter Fresh Cream Sugar-Packed No-Holds Barred Baking Book

My mother's recipe uses Crisco, but I've found English and Australian vegetable shortening to be quite different in texture and density and producing different results when used in baking. So I hunted down this version that uses butter and now I like it even better if that's possible. (Oh and no, I don't know why they're called congo bars either. If you do, please enlighten us.)

1 1/3/280 g cups plain/all-purpose flour
1 ½ tsp baking soda
½ tsp salt
9 Tbsp (1 stick + 1 Tbsp)/125 g butter, softened
1 ¾ cups/350 g light brown sugar*
1 ¼ tsp vanilla extract
2 large eggs at room temperature
1 cup/120 g semisweet chocolate chips
½ cup/60 g coconut

Preheat oven to 350F/180C. Grease an 8 in x 8 in/20 cm x 20 cm square baking pan.

Blend dry ingredients and set aside.

With an electric mixer on medium, cream butter, sugar, and vanilla until light and fluffy (about 2 minutes). Scrape down the sides of the bowl as necessary.

Add eggs, mix on high briefly (about 3-5 seconds), then on medium until well blended (about 7-10 seconds).

Add dry ingredients and mix on low until combined (8-10 seconds).

Fold in chocolate and coconut until thoroughly mixed through. Spread evenly in baking pan.

Bake for about 30 minutes, rotating pan halfway through, or until it has a rich golden crust and the center has sunk. Cool in pan for at least 30 minutes before slicing.

Makes 25 1-inch bars

* I use whatever kind of brown sugar I have on hand. It changes the texture somewhat, but they're pretty much always good.

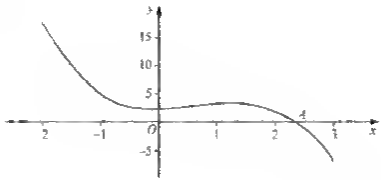

Figure 1

Figure 1 shows part of the curve with equation $y = -x^3 + 2x^2 + 2$, which intersects the x-axis at the point A where $x = \alpha$.

To find an approximation to α, the iterative formula

$$x_{n+1} = \frac{2}{(x_n)} + 2$$

is used.

(a) Taking $x_0 = 2.5$, find the values of x_1, x_2 and x_3.
Give your answers to 3 decimal places where appropriate.

(3)

(b) Show that $\alpha = 2.359$ correct to 3 decimal places.

(3)

2

(a) Use the identity $\cos^2\theta + \sin^2\theta \equiv 1$ to prove that $\tan^2\theta \equiv \sec^2\theta - 1$.

(2)

(b) Solve, for $0 \leqslant \theta < 360°$, the equation

$$2\tan^2\theta + 4\sin\theta + \sec^2\theta = 2$$

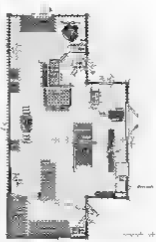
Interior Tours

The tour starts by entering the main door

This door is about four metres away from the back door of the house and the house deck and shed are all at the same level There is no running water in the shed but both a loo and a laundry room sink are located just inside the house

Along with each interior picture there is a map with a red dot demarking where the photo was taken and red lines showing the area covered

Inside the main door looking straight ahead



I built these benches many many years ago out of spruce and plywood one of them *(the closest one)* moved to Seattle and back They *(and their sibling in the basement)* are still serving me well I am forever making modifications to the benches such as adding drawers

2. Set cycle for basic bread or white.

About the Celestial Objects

Listed on this page are several of the brighter, more breathtaking celestial objects visible in the evening sky this month (without the monthly sky map). The objects are grouped into three categories. Those that can be easily seen with the naked eye (that is, without optical aid), those easily seen with binoculars, and those requiring a telescope to be appreciated. **Stars, all of the objects (except single stars) will appear more impressive when viewed through a telescope or very low power binoculars.** They are grouped in this way to highlight objects that may be seen using the optical equipment that may be available to the star gazer.

Tips for Observing the Night Sky

When observing the night sky, and in particular deep-sky objects such as star clusters, nebulae, and galaxies, it's always best to observe from a dark location. Avoid direct light from street lights and other sources. If possible observe from a dark location away from the light pollution that surrounds many of today's large cities.

You will see more stars after your eyes adapt to the darkness—usually about 10 to 20 minutes after you go outside. Also if you need to use a torch to view the sky map, cover the light bulb with red cellophane. This will preserve your dark vision.

Finally, even though the moon is one of the most stunning objects to view through a telescope, its light is so bright that it brightens the sky and makes many of the fainter objects very difficult to see. So try to observe the evening sky on moonless nights several either New Moon or Last Quarter.

Astronomical Glossary

Conjunction – An alignment of two celestial bodies such that they present the least angular separation as viewed from Earth

Constellation – A defined area of the sky containing a star pattern.

Diffuse Nebula – A cloud of gas illuminated by nearby stars.

Double Star – Two stars that appear close to each other in the sky; either linked by gravity so that they orbit each other (binary star) or lying at different distances from Earth (optical double). Apparent separation of stars is given in seconds of arc (")

Ecliptic – The path of the Sun's center on the celestial sphere as seen from Earth

Elongation – The angular separation of two celestial bodies. For Mercury and Venus the greatest elongation occurs when they are at their most angular distance from the Sun as viewed from Earth

Galaxy – A mass of up to several billion stars held together by gravity.

Globular Star Cluster – A ball-shaped group of several thousand old stars.

Light Year (ly) – The distance a beam of light travels at 300,000 km/sec in one year.

Magnitude — The brightness of a celestial object as it appears in the sky.

Open Star Cluster – A group of tens or hundreds of relatively young stars.

Opposition – When a celestial body is opposite the Sun in the sky.

Planetary Nebula – The remnants of a shell of gas blown off by a star.

Universal Time (UT) – A time system used by astronomers. Also known as Greenwich Mean Time. UTC Eastern Standard Time (for example, New York) is 5 hours behind UT.

Variable Star – A star that changes brightness over a period of time.

REGINA MARIE WHITLEY, INDIVIDUALLY AND ON BEHALF OF CHANCE WHITLEY (D)
v.
STATE OF LOUISIANA, THROUGH THE BOARD OF SUPERVISORS OF LOUISIANA STATE UNIVERSITY AGRICULTURAL MECHANICAL COLLEGE, ON BEHALF OF THE MEDICAL CENTER OF LOUISIANA AT NEW ORLEANS-UNIVERSITY CAMPUS
NO. 2011-CC-0040
SUPREME COURT OF LOUISIANA
Dated: July 1, 2011

FOR IMMEDIATE NEWS RELEASE

NEWS RELEASE #042

FROM CLERK OF SUPREME COURT OF LOUISIANA

The Opinions handed down on the **1st day of July, 2011**, are as follows

BY WEIMER, J.

2011-CC-0040

REGINA MARIE WHITLEY INDIVIDUALLY AND ON BEHALF OF CHANCE WHITLEY (D) v STATE OF LOUISIANA, THROUGH THE BOARD OF SUPERVISORS OF LOUISIANA STATE UNIVERSITY AGRICULTURAL MECHANICAL COLLEGE, ON BEHALF OF THE MEDICAL CENTER OF LOUISIANA AT NEW ORLEANS-UNIVERSITY CAMPUS (Parish of Orleans)

For the foregoing reasons, the court of appeal's decision is affirmed. This matter is remanded to the trial court for further proceedings.

AFFIRMED AND REMANDED

NO. 2011-CC-0040

On Supervisory Writs to the Civil District Court, Parish of Orleans

WEIMER, Justice

The issue to be resolved is whether it is sufficient to serve with citation only the head of a state agency or whether it is necessary to also serve the attorney general and the office of risk management in a tort action against a state agency. Specifically, this matter is before the court for a determination of whether the plaintiff's request for service and citation within 90 days from the commencement of this tort suit on only the head of the state agency satisfied the requirements of LSA-R.S. 13:5107 and LSA-R.S. 39:1538. For the reasons that follow, we find that the initial service on only the department head was sufficient and that the subsequent service on the attorney general and the office of risk management cured the objection posed by the state agency's exception of insufficiency of service. Consequently, the appellate court did not err in affirming the trial court's judgment, which overruled the state agency's exception and denied its request for dismissal of the plaintiff's suit. Accordingly, we affirm the court of appeal's decision.

FACTS AND PROCEDURAL HISTORY

Following an automobile accident that occurred in May 2003, Regina Whitley (Whitley), who was approximately five months pregnant, received treatment at Louisiana State University Health Sciences Center-Medical Center of Louisiana at New Orleans-University Campus (University). On July 7, 2003, Whitley delivered a stillborn infant.

The instant action for medical malpractice against University was filed by Whitley on October 26, 2007, seeking damages arising from negligence in the medical care rendered to her

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP FaxTest Server.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is a good practice to set the Automatic Resolution option to Every Error before attempting a test fax. This way, even if the send fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products - consult the product User's Guide for specific steps.

1. Send a one page black and white test fax to 1-888-fxtest4u (1-888-473-2984).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Tangled up in Tunes:
Reading Culture in Music and Musicians

"How much of the '60s counterculture wanted pure pleasure and nothing else? To the degree that we turned off Dylan and flipped on Judy Collins and The Byrds, we were asking for a smug and easy hope. Life is simple: just relax, convoy, too, will come around to our ways. The Beatles told us, "All you need is love." Dylan might agree only he knows that it's far harder to get, and harder to hold, than sticky pop tunes admit." —Mark Edmundson, from "Tangled up in Truth"

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Bishop of Trenton

the problem, then treating the cause and the area of pain or restriction.

The unaided hand is hard pressed to detect and break up as much scar tissue or follow the kinetic chain as effectively or efficiently as stainless steel instruments can.

Patients usually receive two treatments per week for four to five weeks. Most patients have a positive response within two to three treatments. Most patients are not disabled and continue to perform their regular functions at home/work.

GT decreases overall time of treatment, fosters faster rehabilitation/recovery, reduces need for anti-inflammatory medication and resolves chronic conditions thought to be permanent.

If you have not experienced the Graston Technique® yet you have lingering discomfort or stiffness please ask us whether you may be helped by this effective treatment.

Care Instructions and Possible Side Effects

Dedication to a prescribed home exercise program is essential to the success of your treatment. Stretching and strengthening exercises are given to you in order to maintain the release of scar tissue, restrictions and adhesions.

Bruising
Since the involved tissue binds with normal tissue, it develops a blood supply. As restrictions are released from healthy tissue, bruising may occur especially in treating chronic conditions. Some areas of the body that have a very rich blood supply may produce more bruising. Bruising can be controlled with ice.

Soreness
An increase in soreness and discomfort is not uncommon after the first treatment session and is most often a positive sign that restrictions have been released. Soreness is usually minimized after 48 to 72 hours and can be controlled with ice and stretching.

Water Intake
It is recommended that you drink six to eight 8-oz. glasses of water per day. Adequate hydration is important to promote proper healing.

Should you have any questions regarding your instructions, please contact your clinician.

INACTIVATED INFLUENZA VACCINE

WHAT YOU NEED TO KNOW 2011-12

Many Vaccine Information Statements are available in Spanish and other languages. See www.immunize.org/vis
Hojas de información sobre vacunas están disponibles en español y en muchos otros idiomas. Visite www.immunize.org/vis

1 Why get vaccinated?

Influenza ("flu") is a contagious disease.

It is caused by the influenza virus, which can be spread by coughing, sneezing, or nasal secretions.

Anyone can get influenza, but rates of infection are highest among children. For most people, symptoms last only a few days. They include:

- fever/chills
- sore throat
- muscle aches
- fatigue
- cough
- headache
- runny or stuffy nose

Other illnesses can have the same symptoms and are often mistaken for influenza.

Young children, people 65 and older, pregnant women, and people with certain health conditions – such as heart, lung or kidney disease, or a weakened immune system – can get much sicker. Flu can cause high fever and pneumonia, and make existing medical conditions worse. It can cause diarrhea and seizures in children. Each year thousands of people die from influenza and even more require hospitalization.

By getting flu vaccine you can protect yourself from influenza and may also avoid spreading influenza to others.

2 Inactivated influenza vaccine

There are two types of influenza vaccine

1. **Inactivated** (killed) vaccine, the "flu shot," is given by injection with a needle.

2. **Live, attenuated** (weakened) influenza vaccine is sprayed into the nostrils. *This vaccine is described in a separate Vaccine Information Statement.*

A "high-dose" inactivated influenza vaccine is available for people 65 years of age and older. Ask your doctor for more information.

Influenza viruses are always changing, so annual vaccination is recommended. Each year scientists try to match the viruses in the vaccine to those most likely to cause flu that year. Flu vaccine can not prevent illness from other viruses, including flu viruses not contained in the vaccine.

It takes up to 2 weeks for protection to develop after the shot. Protection lasts about a year.

Some inactivated influenza vaccine contains a preservative called thimerosal. Thimerosal-free influenza vaccine is available. Ask your doctor for more information.

3 Who should get inactivated influenza vaccine and when?

WHO

All people 6 months of age and older should get flu vaccine

Vaccination is especially important for people at higher risk of severe influenza and their close contacts, including healthcare personnel and close contacts of children younger than 6 months.

WHEN

Get the vaccine as soon as it is available. This should provide protection if the flu season comes early. You can get the vaccine as long as illness is occurring in your community.

Influenza can occur at any time, but most influenza comes from October through May. In recent seasons, most infections have occurred in January and February. Getting vaccinated in December, or even later, will still be beneficial in most years.

Adults and older children need one dose of influenza vaccine each year. But some children younger than 9 years of age need two doses to be protected. Ask your doctor.

Influenza vaccine may be given at the same time as other vaccines, including pneumococcal vaccine.

4 Some people should not get inactivated influenza vaccine or should wait

- Tell your doctor if you have any severe (life-threatening) allergies, including a severe allergy to eggs. A severe allergy to any vaccine component may be a reason not to get the vaccine. Ask your doctor if you are not sure how severe your allergy is.
- Tell your doctor if you ever had a severe reaction after a dose of influenza vaccine.
- Tell your doctor if you ever had Guillain-Barré

Endodontic Information and Consent Form

Endodontic (Root Canal) Treatment, Endodontic Surgery, Anesthetics, and Medications

We would like our patients to be informed about the various procedures involved in endodontic treatment and have their consent before starting treatment. Endodontic (root canal) treatment is performed in order to save a tooth which otherwise might need to be removed. This is accomplished by conservative root canal treatment or, when needed, endodontic surgery. The following discusses possible risks that may occur from endodontic treatment and other treatment choices.

General Risks

Included (but not limited to) are complications resulting from the use of dental instruments, drugs, sedation medicines, analgesics (pain killers), anesthetics and injections. These complications include: swelling, sensitivity, bleeding, pain, infection, numbness and tingling sensation in the lip, tongue, chin, gums, cheeks, and teeth, which is transient (temporary) but on infrequent occasions may be permanent; reactions to injections; changes to occlusion (biting); jaw muscle cramps and spasms; temporomandibular (jaw) joint difficulty; loosening of teeth; referred pain to ear, neck, and head; vomiting; allergic reactions; delayed healing; sinus perforations; and treatment failure.

Risks More Specific to Endodontic (Root Canal) Treatment

The risks include the possibility of instruments broken within the canals, perforations (extra openings) of the crown or root of the tooth, damage to bridges, existing fillings, crowns, or porcelain veneers; loss of tooth structure in gaining access to canals; and cracked teeth. During treatment complications may be discovered which make treatment impossible, or which may require dental surgery. These complications may include: blocked canals due to fillings or prior treatment; natural calcifications; broken instruments; curved roots; periodontal disease (gum disease); splits or fractures of teeth.

Medications

Prescribed medications and drugs may cause drowsiness and lack of awareness and coordination (which may be influenced by the use of alcohol, tranquilizers, sedatives, or other drugs). It is not advisable to operate any vehicle or hazardous device until recovered from their effects.

Alternative Treatments

These treatments include: no treatment, waiting for more definite development of symptoms, and tooth extractions. Risks involved in the choices might include: pain, infection, swelling, loss of teeth, and infection of other areas.

Consent

I, the undersigned, being the patient (parent or guardian of minor patient) consent to the performing of procedures decided upon to be necessary or advisable in the opinion of the doctor. I also understand that upon completion of the root canal treatment in this office, I shall return to my general family dentist for a permanent restoration of the tooth involved, such as a crown, cap, jacket, onlay, or filling. I understand that root canal treatment is an attempt to save a tooth which may otherwise require extraction. Although root canal treatment has a high degree of success, it cannot be guaranteed. Occasionally a tooth which has had root canal treatment may require retreatment, surgery, or even extraction.

Subject: [Ticket ID: 208423] Fax Solution

Hello Gigi,

I hope you had an excellent weekend. I wanted to inform you the fax issue is very much not forgotten and we have made some significant changes including the deployment of a dedicated fax platform. What this means is the on site ATA has been moved to independent hardware using premium lines from our upstream. The premium lines are not necessary for digital calls, but we have found they make a noticeable difference with the call quality of fax calls. Your ATA has been connected to this new platform and I know I have asked this many times before but would it be possable to send a test fax to the below number?

Please DO NOT include sensitive information when sending to the below test fax.
Fax Number: 1-888-877-1655

You should see a significant success rate to all other faxes as well. Please let me know the results. Thank you.

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files ***always print correctly*** on any printing device.
- PDF files always ***display exactly*** as created, regardless of fonts, software, and operating systems. Fonts, and graphics are not lost due to platform, software, and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy. It's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

dr Samuil Alses - Negative Reviews Alert

11 Apr 2011

I want to inform you that we recently found at least one negative review that is listed on the major search engines under **dr Samuil Alses**.

It is very common for patients and loved ones of patients to file online complaints about Doctors and Clinics. Keeping everyone happy as a Doctor or Medical Professional can be a very difficult task.

Postings, whether true or false, will affect how new prospective patients view your practice. Doctors live by their reputation, so managing your reputation is crucial for your future business and patient flow.

As a doctor you are very much aware of how important it is for you to maintain your good reputation. A strong positive online reputation will keep your existing patients and will bring more new ones: people will choose you as their trusted doctor.

If your practice has been damaged due to false reviews, angry patients, disgruntled former employees or unfair competition then you are already losing patients. People will choose your competition and not you because they have a good online reputation.

It is a fact that people will choose the best doctor to take care of their health. Your negative reviews that you have on the first page make people not choose you as their doctor. You are losing patients each day and your competition gets each one of them.

Stop loosing patients! Get control on your online reputation!

If All Else Fails Reputation Solutions will make the difference:

Why choose us for your online reputation management?

- Reputation Solutions team is totally honest and direct in discussions and will always give you the realistic picture of what can be done for you and how much you can expect.
- Cost effective prices - compared to the most online reputation management providers our prices are incredibly affordable, **starting from $45/month**. We have priced our services in a manner that they would be affordable but at the same time do not force us to compromise on our service quality. Our prices are flexible and based on the budget of the client. We are open for discussion and we can make a custom plan that fits your needs.
- Our team will defend your interests as if it were ours and you can rely on us to regain your good name.

Our goal is to deliver solutions profitable for both of us.

Kind regards,
Tim

Department of Consumer Affairs

Debt Collection: Money Judgments and Frozen Bank Accounts

Information for Consumers

Debt collection was the #1 complaint category for the Department of Consumer Affairs (DCA) in 2008 with complaint volume increasing nearly 70% compared to 2007. Although DCA can mediate many of the complaints we receive, we cannot mediate issues that involve money judgments and frozen bank accounts. To help you protect yourself—and your money—DCA created this fact sheet, which includes where to turn when you need assistance.

Money Judgments

What is a money judgment?
If a person or company (known as the "creditor") sues you, claiming that you owe a certain amount of money and the judge decides in the creditor's favor the judge awards a "money judgment." The creditor has a right to try to collect that money from you or satisfy the judgment. If a creditor has a money judgment against you, that creditor may try to take money directly from your bank account to pay off the debt.

If I have a money judgment against me, what happens to the money in my bank account?
One way a creditor can try to collect on a money judgment is to serve legal papers to the bank or credit union requiring it to "restrain" or "freeze" a consumer's bank account. This allows a creditor to take money directly from that account.

Can a creditor take all of my money to satisfy a money judgment?
In New York State, as of January 1, 2009, even if a creditor has a judgment against you, the creditor cannot take, restrain, or freeze all of the money in your account—*no matter how much you owe*.

Exempt Funds

Under State and Federal law, certain money **may never** be taken by creditors to satisfy money judgments. (See *Are there exceptions to the Exempt Income Protection Act?*) This money is considered "exempt funds." You may choose to use exempt funds to pay a debt you owe, but a creditor cannot freeze or forcibly take those funds from you or your bank account to pay off a debt.

Exempt funds include the following:

- ✓ Supplemental Security Income (SSI)
- ✓ Social Security retirement
- ✓ Social Security Disability (SSD)
- ✓ Public assistance (Temporary Assistance for Needy Families, TANF)
- ✓ Income earned while receiving SSI or public assistance
- ✓ Disability benefits
- ✓ Workers' compensation benefits
- ✓ Veterans' benefits
- ✓ Black lung benefits
- ✓ Spousal support, maintenance (alimony), or child support
- ✓ Railroad retirement
- ✓ Unemployment benefits

- ✓ **Wages.** Ninety percent (90%) of your wages earned during the past 60 days are exempt if you need them for basic needs, such as shelter (rent or mortgage), food, and medicine. This means that if you earn $500 per week, up to $3,600 would be exempt from an account freeze, if you need that money for critical expenses like rent or mortgage, food, or medicine.

- ✓ **Most public or private pensions.** Public or private pensions are usually exempt from collection.

Exempt Income Protection Act of 2008

Under a new law effective January 1, 2009—the Exempt Income Protection Act of 2008—some money held in bank accounts is protected to ensure that consumers have sufficient funds available to meet their basic needs, such as rent, food, and medicine.

Two deaths from brain-eating amoeba linked to sinus remedy for colds

- U.S state issues health warning after neti pot is linked to two deaths

By Claire Bates

Last updated at 2:29 PM on 19th December 2011

A model holds a neti pot as is used to relieve nasal congestion of cold and allergy sufferers

A sinus-flushing device used to relieve colds and allergies has been linked to a deadly brain-eating amoeba.

Louisiana's state health department issued a warning about neti pots - which look like mini watering cans that are used by pouring salty water through one nostril.

It follows two recent deaths - a 51 year-old woman and a 20-year old man from the brain-eating amoeba Naegleria fowleri.

It is thought the amoeba entered their brains when they used the devices.

Both victims are thought to have used tap water instead of distilled or sterilised water as recommended by the manufacturers.

Dear Governor A Cowboy
My name is Ringo Starr and I am your constituent living in zip code sword. I am horrified and appalled that in the 20 years since Columbine, our country is still suffering incidence after incidence of mass shootings, many of them committed at schools. I do not want to see this continue, and I stand with the majority of U.S. citizens who support common sense gun laws. New laws must be implemented now, before even more people die.
I am writing to communicate, in the clearest possible terms, that

+ If you pursue legislation for common sense gun laws, I applaud you and will consider voting for you in the future.

+ If you fail to do anything, or block, vote against and otherwise oppose implementation of common sense gun laws, and place the interests of the pro-gun lobby above that of your constituents, you can be assured I will never vote for you in the future.

This is not about politics. It is about the safety and well-being of every single person in the United States. I look forward to our region being a leader of common sense gun law implementation soon. These mass killings must stop. Thank you.

Signed
Ringo Starr

The three install types on Plugged USB HDD and USB ZIP Plugged is the default type. It may be installed to a partition, and usually works. Install to Hard Disk is for USB-HDD mode thumb disk and is slightly different formatting, which may help the USB thumb boot on computers where this would not. USB-ZIP is for older BIOSes that needed ZIP drive emulation in order to boot from USB

Test your fax machine without bothering friends

Submitted by Adam on October 16, 2006 12:27pm. Riding Shotgun with Adam

I found this site today while trying to see if a fax machine was working correctly. It is always tough testing a fax because you have to have a friend who is home, with a fax, and willing to help. Thanks to a commenter, you can try the test fax service from HP as well.

This site lets you enter a fax number and, in a few minutes, you will receive a test fax.

If this helped, consider buying me a beer or an Americano! — —

The distant fading gains are assumed to be perfectly known by the receiver. Treating real and imaginary part of (1) separately, the system model can be rewritten as

$$\mathbf{x} = \mathbf{H}\mathbf{s} + \mathbf{n} \tag{2}$$

with the real-valued channel matrix

$$\mathbf{H} = \begin{bmatrix} \Re\{\mathbf{H}\} & -\Im\{\mathbf{H}\} \\ \Im\{\mathbf{H}\} & \Re\{\mathbf{H}\} \end{bmatrix} \in \mathbb{R}^{m \times n} \tag{3}$$

and the real-valued vectors

$$\mathbf{x} = \begin{bmatrix} \Re\{\mathbf{x}\} \\ \Im\{\mathbf{x}\} \end{bmatrix}, \quad \mathbf{s} = \begin{bmatrix} \Re\{\mathbf{s}\} \\ \Im\{\mathbf{s}\} \end{bmatrix}, \quad \mathbf{n} = \begin{bmatrix} \Re\{\mathbf{n}\} \\ \Im\{\mathbf{n}\} \end{bmatrix}. \tag{4}$$

By defining $m = 2m_{\mathbb{C}}$ and $n = 2n_{\mathbb{C}}$ the dimension of the real channel matrix (3) is given by $n \times m = 2n_{\mathbb{C}} \times 2m_{\mathbb{C}}$. Likewise the dimension of the vectors (4) are given by $\mathbf{x} \in \mathbb{R}^n$ and $\mathbf{s} \in \mathcal{A}^m$ where $\mathcal{A}$ denotes the finite set of real-valued transmit signals. For M-QAM this set is given by $\mathcal{A} = \{\pm 1, \pm 3, \ldots, \pm(\sqrt{M}-1)\}$ with $\sqrt{M}$ representing the modulation order of the corresponding real-valued ASK. The parameter $\tau = \sqrt{2/(M+1)}$ is used for normalizing the power of the complex valued transmit signals to 1. In the sequel we will apply this real-valued representation, as we can now interpret each coinciding receive signal as a point of a lattice spanned by $\mathbf{H}$. Additionally the performance of successive algorithms like the V-BLAST detection can be improved by separating the real and imaginary part of each transmit signal [6]

The optimum maximum-likelihood (ML) detector searches over the whole set of transmit signals $\mathbf{s} \in \mathcal{A}^m$ and decides in favor of the transmit signal $\hat{\mathbf{s}}_{\mathrm{ML}}$ that minimizes the euclidian distance to the receive vector $\mathbf{x}$, i.e.

$$\hat{\mathbf{s}}_{\mathrm{ML}} = \arg\min_{\mathbf{s} \in \mathcal{A}^m} \|\mathbf{x} - \mathbf{H}\mathbf{s}\|^2 \tag{5}$$

As the computational effort is of order $M^{m/2}$ hereby some ML decisions is not feasible for larger orders of transmit antennas or higher modulation schemes. A feasible alternative is the application of sphere detector (SD) [2], which restricts the search space to a sphere. However the computational complexity is still high in comparison to simple but suboptimal successive interference cancellation (SIC). In the sequel, we investigate the application of lattice-reduction in order to improve the performance of SIC and linear detectors. One advantage of this strategy is, that the computational overhead is only required once for each transmitted frame, as for large frame length the effort for each signal vector is very small.

III Lattice Reduction

In the sequel, we interpret the columns $\mathbf{h}_k$ ($1 \le k \le m$) of the real-valued channel matrix $\mathbf{H}$ as the *basis* of a lattice and continue for the moment that the possible transmit vectors are given by $\mathbb{Z}^m$ the m-dimensional infinite integer space. Consequently the set of all possible multicarrier receive signals is given by the lattice

$$\mathcal{L}(\mathbf{H}) = L(\mathbf{h}_1, \ldots, \mathbf{h}_m) := \sum_{k=1}^{m} \mathbf{h}_k \mathbb{Z}. \tag{6}$$

The matrix $\mathbf{H} = \mathbf{H}\mathbf{T}$ generates the *same* lattice as $\mathbf{H}$, if and only if the square matrix $\mathbf{T}$ is *unimodular* [5], i.e. $\mathbf{T}$ contains only integer entries and the determinant is $\det\{\mathbf{T}\} = \pm 1$.

$$\mathcal{L}(\mathbf{H}) = \mathcal{L}(\tilde{\mathbf{H}}) \Longleftrightarrow \tilde{\mathbf{H}} = \mathbf{H}\mathbf{T} \text{ and } \mathbf{T} \text{ is unimodular} \tag{7}$$

The inverse of unimodular matrices always exists and contains also only integer values i.e. $\mathbf{T}^{-1} \in \mathbb{Z}^m$. Obviously, the relation $\mathbf{H} = \tilde{\mathbf{H}}\mathbf{T}^{-1}$ holds.

For further investigations, we define the QR decomposition $\mathbf{H} = \mathbf{Q}\mathbf{R}$ with the $n \times m$ matrix $\mathbf{Q} = [\mathbf{q}_1 \ \ldots \ \mathbf{q}_m]$ having orthogonal columns of unit length ($\mathbf{Q}^H\mathbf{Q} = \mathbf{I}_m$) and the upper triangular matrix $\mathbf{R} = (r_{i,j})_{1 \le i,j \le m}$. Thus, each column vector $\mathbf{h}_k$ of $\mathbf{H}$ is given by $\mathbf{h}_k = \sum_{i=1}^{k} r_{i,k}\mathbf{q}_i$. The vector $\mathbf{q}_k$ denotes the direction of the perpendicular to the space spanned by $(\mathbf{q}_1, \ldots, \mathbf{q}_{k-1})$ and $r_{k,k}$ describes the corresponding length. Furthermore, $r_{k,j} = \mathbf{q}_k^H \mathbf{h}_j$ is the length of the projection of $\mathbf{h}_j$ onto $\mathbf{q}_k$. In the same way the decomposition $\mathbf{H} = \mathbf{Q}\mathbf{R}$ is orthonormal.

The aim of lattice-reduction is to transform a given basis $\mathbf{H}$ into a new basis $\tilde{\mathbf{H}}$ with vectors of shortest length or equivalently into a basis consisting of roughly orthogonal basis vectors. Usually $\tilde{\mathbf{H}}$ is much better conditioned than $\mathbf{H}$. With respect to the QR decomposition, $\tilde{\mathbf{h}}_k$ is almost orthogonal to the space spanned by $[\tilde{\mathbf{h}}_1 \ \ldots \ \tilde{\mathbf{h}}_{k-1}]$ if $|\tilde{r}_{k-1,k}|$ are close to zero. An efficient (though not optimal) way to determine a reduced basis was proposed by Lenstra, Lenstra and Lovász [10]

Definition (Lenstra-Lenstra-Lovász-Reduced): A basis $\tilde{\mathbf{H}}$ with QR decomposition $\tilde{\mathbf{H}} = \tilde{\mathbf{Q}}\tilde{\mathbf{R}}$ is called *LLL-reduced with parameter* δ ($1/4 < \delta < 1$), if [10]

$$|\tilde{r}_{k,k}| < \frac{1}{2}|\tilde{r}_{i,k}| \quad \text{for} \quad 1 \le i < k \le m \tag{8}$$

and

$$\delta \tilde{r}_{k-1,k-1}^2 \le \tilde{r}_{k,k}^2 + \tilde{r}_{k-1,k}^2 \quad \text{for} \quad k = 2, \ldots, m \tag{9}$$

If only (8) is fulfilled, the basis is called *size-reduced*. The parameter δ influences the quality of the reduced basis. Throughout this paper we will assume $\delta = \frac{3}{4}$ as proposed in [10] The whole LLL algorithm is shown in Tab. 1[1] Given the QR decompositions of $\mathbf{H}$ it successively size-reduces the basis according to (8), exchanges two basis vectors if (9) is not fulfilled and adapts $\mathbf{T}$, $\mathbf{R}$ and $\tilde{\mathbf{Q}}$. The output of the LLL algorithm is given by $\tilde{\mathbf{Q}}$, $\tilde{\mathbf{R}}$, and $\mathbf{T}$.

Obviously the complexity of the algorithm highly depends on the number of column exchanges, because in this case not only matrix multiplications are required, but also the counter k is decreased again. In the first step ($k = 2$) no exchange operation is necessary if $\delta \tilde{r}_{1,1}^2 \le \tilde{r}_{2,2}^2 + \tilde{r}_{1,2}^2$ holds. Consequently, $|\tilde{r}_{1,2}|$ should be as small as possible. Similar arguments hold for the remaining diagonal elements $\tilde{r}_{k,k}$. Therefore, the *Sorted QR Decomposition* (SQRD) introduced in [11] and modified

[1] Within the algorithm, $A(a \ : \ b, c : d)$ denotes the submatrix of A with elements from row a to b and columns c to d. With $\lceil a \rfloor$ we denote the nearest integer to a.

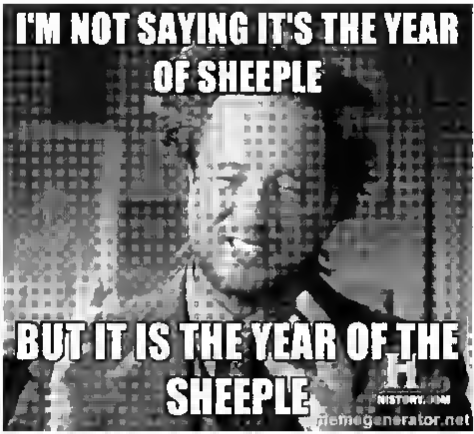
As I was walking up the stair
I met a man who wasn't there
He wasn't there again today
Oh how I wish he'd go away

When I came home last night at three
The man was waiting there for me
But when I looked around the hall
I couldn't see him there at all!
Go away, go away, don't you come back any more!
Go away, go away, and please don't slam the door

Last night I saw upon the stair
A little man who wasn't there
He wasn't there again today
Oh how I wish he'd go away



I'M NOT SAYING IT'S THE YEAR OF SHEEPLE

The purpose of this document is to clearly identify cartridge magazines specific to the Rock River Arms LAR-15 Pistol, which is a "handgun, commonly available in Canada" and which may have a magazine with a capacity of (not more than) ten shots.

1. The Rock River Arms, LAR-15 Pistol qualifies as a "handgun, commonly available in Canada"

2. Each of the two patterns of cartridge magazine for this handgun, as manufactured by **C Prudhon LLC**, have been deemed to be acceptable as a "handgun magazine" as both patterns meet the following criteria:
a) each of the two patterns of magazine *(Proprietary information deleted from this reproduction)* **and,**
b) the two patterns of cartridge magazine for this handgun, as manufactured. *(Proprietary info deleted from this reproduction).*

3. The two magazine designs that have been found acceptable as handgun magazines are held by the RCMP Firearms Support Services, Firearms Reference Table Section as "patterns" These particular designs are approved for use as "handgun magazines for a handgun commonly available in Canada"

4. As an assist to identification, the two different cartridge magazines which have been deemed acceptable as "a magazine for use in a handgun commonly available in Canada" bear the following identification markings on the body of magazine case, applied at the time of manufacture by the manufacturer:

a) **223 REMINGTON CALIBRE MAGAZINE**

RRA MODEL LAR 15 PISTOL MAGAZINE
223 REM/5.56 MM NATO 10 ROUND CAPACITY
And

b) **9MM LUGER CALIBRE MAGAZINE**

RRA MODEL LAR 15 PISTOL MAGAZINE
9MM NATO 10 ROUND CAPACITY

NOTE: The two magazine designs with the above markings are deemed acceptable as "magazines for use in a handgun commonly available in Canada" - they do not qualify as "prohibited devices" and the further use of these magazines on any other firearm is not regulated.

Students cost for transportation, play, museum tickets, and dinner is = $140. Cost for chaperones is also $140. Please email and send a check to Eden.Stein@new_haven.k12.ct.us as soon as possible if you want to chaperone. We only have three slots. Also, students must bring lunch money for snack or bring one (suggested at least $10.00). The first payment of $70.00 is due on January 18. The second payment of $70.00 is due by February 18. Please bring money (checks payable to Worthington Hooker School) to Dr. Stein.
***If your child needs partial financial help to join the field trip, please contact Dr. Stein by January 11.**

NO large backpacks are allowed in museum. Small purses are okay. Please have your child dress appropriately for the weather with comfortable shoes for walking. Note: Attendance on the field trip is dependent on behavior at school. Students with unacceptable behavior will be excluded.

I give permission for my child _____ to attend the field trip to New York City on Wednesday, May 25. I will drop him/her off at the New Have Train Station at 7:45 and pick them up at 9:45. I understand they need to bring extra money or a snack for the morning and dress appropriately for the weather.

We are no other than a moving row
Of Magic Shadow-shapes that come and go
Round with the Sun-illumined Lantern held
In Midnight by the Master of the Show;

But helpless Pieces of the Game He plays
Upon this Chequer-board of Nights and Days;
Hither and thither moves, and checks, and slays,
And one by one back in the Closet lays.

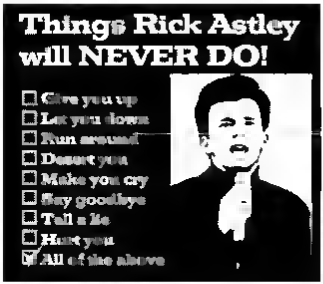
What happened was in the classroom we started playing a game with the hornets. The teacher only told the people that were shooting each other to stop. The only person I saw shooting people was Jordan. The game was just shooting pencils and pencil cases. Bryan and myself had started to wear the rubber bands around our wrists. We weren't going to shoot anyone. Someone had started to shoot the hornets I don't know who but Anthony said it was Matthew. Everyone else that was involved said they were hit by Matthew. I told them I got hit by him to. Matthew hit Bryan again and he got mad and told Mattbew to stop. Then I got hit again from the direction Jordan was sitting so I got angry and fired a warning shot at Lane's lunchbox then said stop. Jason fired one at the ground it bounced up and flew past the girl. I got hit a third time and aimed the rubber band at Jordan because it came from where Jordan was sitting pointed it at him and said stop. He told it wasn't him then my hand slipped and I accidently shot him. I told him I was sorry and he forgave me. Anthony was hit again but I have know idea who hit him. He shot one at Matthew because he thinks that's who hit him but the hornet missed and it hit Jason he of course said he was sorry. Jordan shot at Devin then one at Dennis but missed them both. The girl was never hit by anyone she is telling a lie. My intention was never to hit anyone at all but I had accidently shot Jordan.



Things Rick Astley will NEVER DO!
Give you up
Let you down
Run around
Desert you
Make you cry
Say goodbye
Tell a lie
Hurt you
All of the above

BEFORE STARTING ANY NEW ROUTINE, make sure you're in the clear

love your butt

Add power to your stride—and rock those jeans—with our ultra-quick backside routine.

BY KAREN ASP

Behold, the butt. Never has an area of the anatomy caused as much consternation in as many of us (insert your gripe here). But developing your derriere isn't just about your appearance—it's important for how you feel and function, too. "A strong butt is the key to all lower-body movements," says Jessica Smith, a Miami-based trainer and creator of the video *Work On: 28-Day Weight Loss Plan*. "Even if one wants to look good in jeans, and that's one benefit of working your backside, but the real payoff is how much stronger you'll feel doing everyday tasks."

So for the sake of all the things you want to do well every day—*including* filling out those flatters—Smith designed this fast-yet-fantastic 20-minute guide. Simply do it three days a week for the next five weeks, and you'll never look back in anger again. [illegible]

HERE'S YOUR BOTTOM LINE We'll tell you what add power to cardio workouts, help relieve lower-back pain, help you stand straighter, and make you feel amazing doing ordinary tasks—like squatting to pick up [illegible]

STATEMENT REGARDING A LOST OR STOLEN U.S. PASSPORT BOOK AND/OR CARD

IMPORTANT NOTICE

A U.S. citizen may not normally have more than one valid or potentially valid U.S. passport book and one valid U.S. passport card at a time. It is therefore necessary to submit a statement with an application for a new U.S. passport when a previously issued valid or potentially valid U.S. passport book/card cannot be presented. Your statement must state why no previous U.S. passport book/card can or be presented. The information you provide on the DS-64, Statement Regarding a Lost or Stolen U.S. Passport Book and/or Card, will be placed into our Consular Lost and Stolen Passport System. This system is designed to prevent the misuse of your lost or stolen U.S. passport book/card. Anyone using a U.S. passport book/card reported on the DS-64, including yourself, may be detained upon entry into the United States. Should you locate the reported lost or stolen U.S. passport at a later time, submit it for cancellation to the Consular Lost and Stolen Unit. It may not be used for travel. See page one of this form for additional information.
